## Installation:

Before you start installing baskets (left or right) you must dismount factory brackets – two brackets on the right side for the right basket, two brackets on the left side for the left basket.

Familiarize yourself with *Right Basket Diagram* (**page 5**) or *Left Basket Diagram* (**page 6**).

Put the Cargo Basket on its place and screw **all the bolts**.

Make sure that everything is mounted properly, and all the bolts are tightened. If it everything is correct, your work is done.

**After driving 50 km with your cargo basket, check all the bolts and re-tighten them if necessary.**
